

EDUCATION**W. P. Carey School of Business at Arizona State University**

Aug. 2024 – Dec. 2025

Master of Science in Business Analytics (GPA: 3.86)

Tempe, Arizona

- Relevant Coursework: Prediction Models, Descriptive and Predictive Analytics, Machine Learning in Business, Analytics for Unstructured Data, Quantitative Risk Management, Managerial Finance

National Chengchi University

Sep. 2019 – Jun. 2023

Bachelor of Arts in English, Minor in Diplomacy (GPA: 3.74)

Taipei, Taiwan

- Relevant Coursework: Financial Accounting, Economics, International Business and International Relations

PROFESSIONAL EXPERIENCE**Assistant Engineer/Project Coordinator, Fire Protection Materials & Logistics**

Jul. 2026 – Present

United Integrated Services (USA) Corp.

Phoenix, Arizona

- Own material flow for the fire protection scope on a **TSMC** semiconductor fab construction project, covering fire alarm, VESAD, fire extinguisher and BDA systems.
- Built a four-page Power BI report over a **570-item** catalogue and approx. **1M** units issued in eight months, with DAX measures for days of cover, reorder point (ROP) and a **1 to 15** out of stock risk score that ranks what to order next.
- Showed management team that **30** items drive **80%** of consumption while **289 (51%)** items never moved; set ROP and safety stock on those **30** SKUs and flagged **26** items already out of stock against live demand.

Material Planner

Apr. 2026 – Jun. 2026

Marketch International Corporation USA

Phoenix, Arizona

- Designed and built a SharePoint-integrated Master Database with **3,000+ SKUs** and a custom HTML Warehouse Management System, enabling barcode-driven inventory receiving, pick order tracking, real-time inventory visibility, and **inventory forecasting** to support replenishment planning, improve service levels, and reduce stockout risk.
- Managed end-to-end procurement workflows in the **ERP** system, including purchase requisition creation, approval routing, and purchase order tracking, managing an average of **five** procurement requests concurrently.
- Supported accounts payable and receivable operations by reconciling invoices against purchase orders and entering payment data into the **TSMC** procurement system to ensure documentation accuracy.

Research Assistant

Jun. 2025 – Sep. 2025

Department of Supply Chain Management, ASU

Tempe, Arizona

- Built an HS code classification database covering **212 semiconductor materials and components**, supporting trade compliance, import/export analysis, and supply chain risk assessment.
- Analyzed and visualized import/export trade data for **40 key chemical inputs** using **Python (pandas, matplotlib)** to identify upstream material flow patterns and sourcing dependencies.

PROJECT EXPERIENCE**Capstone Project – Amkor Technology Interactive Dashboard**

Aug. 2025 – Dec. 2025

Financial & Operational Analytics

Tempe, Arizona

- Built an interactive Power BI dashboard consolidating financial and operational KPIs for a global OSAT semiconductor company, replacing manual collection from SEC filings, press releases, and analyst reports with a single executive view.
- Benchmarked inventory turnover, capital efficiency and segment-level growth versus ASE, JCET and PTI, showing Amkor leading 2025 packaging revenue growth at **20.0%** against ASE at **6.3%** and PTI at **5.5%**.
- Forecasted Amkor's ROIC–WACC spread and quarterly revenue ten quarters ahead from **40** quarters of history using a SARIMAX and regularized-ensemble hybrid, hitting **93%** directional accuracy on the spread and **R² 0.93** on revenue, with 2027 Q4 the earliest point the spread returns to value creation.

AI Trash-Sorting System - DevHacks Hackathon (5th Place)

Mar. 2025

- Led a cross-functional team of four to design and deploy a full-scale AI-powered trash-sorting prototype within **24** hours.
- Built a **transfer learning** CNN using Keras that achieved **96%** classification accuracy across **four** waste categories and integrated it with a Raspberry Pi-controlled mechanical sorting system.

SKILLS & ACTIVITIES

Supply Chain & Operations: Supply Chain Analytics, Inventory Analysis, Material Planning, MRP/ERP Concepts, Import/Export Data Analysis, Lean Six Sigma (Green Belt)

Programming & Analytics: Python (scikit-learn, pandas, NumPy, statsmodels), SQL, Predictive Analytics, Data Visualization

Tools & Platforms: Power BI, Tableau, Excel (PivotTables, VLOOKUP), MySQL Workbench, Minitab, Google Analytics 4

Languages: English (Professional), Mandarin Chinese (Native)
